

KOMFI DELTA 52

Reference number: 1957
Manufacturer: Komfi
Model: Delta 52
Year of production: 2023
Available: 03/2025
Price: on request

Technical specification

- Automatic feeder with fixed lifting table
- Single action Komfi feeding head
- Vacuum pump
- Automatic sheet overlap control
- Mis-feeding detection
- Laminating cylinder heated by 3-zone electro-resistance heater
- Temperature drop detection
- *Teflon* pressure roller
- Air pressure decrease detector
- Airshaft for film unwinding
- Combined de-curling unit (bar and roller)
- Automatic sheet separation using built-in perforator
- Pneumatic snapping unit is electronically controlled
- Speed adjustable separating roller
- Sheet separation detector
- Fixed delivery desk

Technical Parameters:

- Maximum speed of lamination: 35 m/min
- Maximum sheet dimensions: 54 × 76 cm
- Minimum sheet dimensions: 20 × 20 cm
- Paper weight: 115-600 g/m²
- Thickness of laminating film: 24-50 μm
- Kind of laminating film: OPP, PET, Nylon
- Time of laminating roll warm up (25÷100 °C): 3 min
- Sheet overlap accuracy (at constant laminating speed): +1 mm
- Machine dimensions including delivery desk (L * W * H): 268 × 123 × 144 cm
- Air supply: 6 bar
- Air consumption at stable run: 60 l/min
